### **RE: Use of GH Armor Systems Ballistic Panels with 5.11 Uniform Outer Carrier**

Dear Mr. Hein,

As specified in our Body Armor Warranty, ballistic panels are warranted for a period of sixty (60) months (see Body Armor Warranty for details). Consistent with the terms of the warranty, GH Armor Systems will continue to support the warranty of GH Armor Systems ballistic panels when used in conjunction with the 5.11 Uniform Outer Carrier(s) subject to the following conditions:

- GH Armor Systems panels must remain in their original carriers from the factory when inserted into the 5.11 Uniform Outer Carrier(s).
- The front and rear panels must be fastened together with the Velcro straps and connected inside of the shoulder area of the 5.11 Uniform Outer Carrier carrier(s) in order to suspend the front and back ballistic panels in the proper orientation.

Please be advised that proper orientation is integral to the performance of the ballistic panels. Also, ballistic panels offer protection to only those areas that cover the body. As such, GH Armor Systems will not be responsible for the sizing, labeling or integration of the ballistic panels with the 5.11 Uniform Outer Carrier.

We truly appreciate your selection of the GH Armor Systems product and commitment to quality products for service to the law enforcement community. If you have any questions, please contact me at (866) 920-5940 or [cgrado@gharmorsystems.com](mailto:cgrado@gharmorsystems.com).

Regards,
