NIGHTSTICK®
Life Depends on Light™

LGL-150

45° Offset Picatinny Mount

PERFECT FOR CARBINE USE

L34 | L32 | L30 | L28 | L26 | L24

2 HOUR RUNTIME

450 LUMENS

Reversible Picatinny mount (standard and offset included) provides flexible mounting solutions to avoid interference with other accessories.

Precision-engineered reflector creates a tight, bright beam with defined center spotlight and soft secondary halo.

Light includes 6" LGL-RPS1 and NS-PIC1 rail mount for remote mounting options. Switch activates momentary and constant-on modes.

Kit includes NS-WM1 wire management clamp to keep RPS cable secured and avoid snags. Molded cable channels provide multiple entry/exit paths.
