

## DMM VAULT LOCK TOOL CARRIER

The Vault is a secure and durable tool holder that can be used on everything from harnesses and kit bags to vehicles.

The two-part aluminum alloy Vault is secured using a stainless steel bolt and is the ideal solution for gear storage, organization and transportation. The locking gate option provides even greater security for your kit by preventing accidental opening. *Not PPE.*

- One-handed operation for ease of use
- Top 'shelf' allows in-situ gear selection
- Low nose profile minimizes hook-ups
- Can be set to either the unlocked or locked position
- Max webbing size: 45 mm x 3 mm
- Gate opening: 20 mm
- User-installed with flat-bladed screwdriver
