

USAR GLOVE

Certified Compliant with NFPA 1951/2020 Edition

General Use: This specially created glove provides the user with a very high level of heat, cut and puncture protection, it is **waterproof** and provides protection against hazardous chemicals.

Application: These gloves were developed to reduce the safety and health risks experienced by emergency service organizations that perform technical rescue incident operations, including, but not limited to urban search and rescue (USAR) incidents.

Typical Rescue Operations involve search, rescue, extrication, treatment, recovery, and site stabilization, encountered as the result of building or structural collapse, vehicle/person extrication, confined space entry and trench/cave-in rescue.

Features:

- Waterproof NFPA compliant moisture barrier
- Highly Flexible - Minimal Hand Fatigue
- Wear- Resistant, Silicone coated Kevlar[®] Palm
- Velcro wrist strap for secure fit
- Reflective back for night operation
- Exceptional Cut and Puncture protection
- Nomex[®] Debris Cuff
- Size Selection: from XXS through 4XL

The USAR Technical Rescue

GLOVE SPECIFICATIONS

I. Construction

- a. This five-fingered glove is constructed using a modified gunn-cut pattern with a straight thumb, resulting in wide thumb rotation and minimum seam stress at the base.
- b. Certified by Safety Equipment Institute, McLean, Virginia to comply with NFPA 1951/2020 Edition.
- c. Palm Side:
-Silicon & TPR coated Kevlar®/Porelle® moisture barrier/ 2 layers of Nomex®
- d. Back Side:
-Silicon coated Kevlar®/ Porelle® moisture barrier/ Normex®
- e. Reflective patch on the back for night Operations
- f. Durable Velcro Strap for a snug, safer grip
- g. Nomex® debris cuff keeps foreign objects out
- h. Each pair of gloves is individually poly-bagged, along with maintenance and inspection instructions.
- i. This size is available in 9 sizes (see below). Sizing allows the tips of users fingers to extend to end of the glove for enhanced dexterity and safety.
